The [Women Peace and Security Index](#) is a metric jointly created by Georgetown University's Institute for Women, Peace and Security ([GIWPS](#)) and the Peace Research Institute Oslo (PRIO) [Centre on Gender, Peace and Security](#).

The WPS uses multiple data sources to generate a measure of gender inclusion, justice, and security.

Afghanistan scored the lowest (0.287) amongst the 170 countries scored.

*Note: England score uses United Kingdom data (includes independent FIFA members Northern Ireland, Scotland, and Wales) in the calculation.*
