

BSIA Internship Travel grant – up to \$1500

All MIPP and MAGG students doing an unpaid or underpaid international internship can apply for this \$1500 grant by completing the “[BSIA Graduate Student Research/Travel Support Application Form](#)” and sending it to Andrew Thompson, asthompson@balsillieschool.ca.

Normally, underpaid internships are defined as internships that pay less than the Ontario minimum wage. Students doing paid placements that take place in locations where the cost of living is very high may also be eligible for the award as determined by Andrew Thompson, BSIA Program Manager.

Students may be reimbursed up to \$1500 towards travel costs related to their internship. Travel expenses can include airfare, airport transfer fees (taxis, etc.) and accommodation.

Students may receive half of their airfare costs (up to \$1500) when they arrive at their internship destination and submit their receipts and boarding pass, along with the attached completed expense claim form to [Joanne Weston](#).

If there are funds remaining after this amount is paid, students may submit an expense claim as soon as their expenses reach the balance of their grant (up to a total reimbursement of \$1500).
